Scott is co-owner and president of Delta 3 Engineering, Inc. in Platteville, Wisconsin, and Dubuque, Iowa. He is a professional civil engineer practicing in the areas of structural and geotechnical engineering, facilities improvement, facilities analysis, energy audits, and energy conservation analysis. He is responsible for overseeing Delta 3's architectural and structural engineering division as well as the day-to-day operations of the firm.

Scott has completed professional continuing education courses in seismic design, structural steel, heavy timber, reinforced concrete, and masonry design, facility thermal performance, heating ventilating and air conditioning systems design, commercial plumbing systems design, international building code analysis, and Americans with Disabilities Act (ADA) compliance review.

Scott has provided space needs analysis, facility design services, structural engineering, and building thermal performance analysis for projects throughout Iowa, Wisconsin, Ohio, Minnesota, and Nebraska.
